Goldwind is principally engaged in research, development, manufacturing and marketing of large-sized wind turbine generator sets. The company's major products include: Permanent Magnet Direct-Drive ...

It is small, lightweight, and convenient to transport and hoist. It uses a permanent magnet synchronous generator to avoid excitation loss and achieve increased efficiency. It provides a wide speed ...

As a world-top wind turbine manufacturer, we are committed to providing integrated wind power solutions, including wind farm sitting, design, and construction; wind turbine equipment ...

The Goldwind 4S MW PMDD platform is part of that innovative future. The GW4S turbine is a direct evolution of Goldwind's portfolio of wind turbine generators that offer best-in-class energy production, ...

For more than two decades, Goldwind has been developing a robust evolution of Permanent Magnet Direct-Drive (PMDD) for the world's most complex wind markets. Our smart wind turbine series ...

20+ years of operational experience from 21,000+ Permanent Magnet Direct Drive (PMDD) wind turbines. The gearless drivetrain design eliminates the possibility of gear failure during the ...

It's how Goldwind is shaping the new standard in wind technology with advanced permanent magnet direct-drive (PMDD) turbines. Our specialised German-engineered PMDD wind turbines are built with ...

Online access > Manufacturers and turbines > Goldwind Manufacturers file (228 manufacturers)
Turbines file (2,053 turbines) Power curves file (898 curves)

Specializing in wind power solutions, the Internet of Energy, and environmental protection, we leverage strong scientific research innovation and best business practices to take renewable energy utilization ...
