Who makes wind turbines?

German firms such as ENERCON and Nordex, as well as China's Mingyang Smart Energy and Envision Energy, are also key players shaping the future of wind power. This ranking highlights the top 15 makers of wind turbines worldwide, according to their installed capacity as of October 2025. 1.

Which wind turbine manufacturers dominate the world?

As the world accelerates its shift toward clean energy, the competition among wind turbine manufacturers is at an all-time high. Leading wind power turbine manufacturers like Vestas (Denmark), Siemens Gamesa (Spain), Goldwind (China), and GE Vernova (France) continue to dominate global markets with massive installed bases and expanding order books.

What are emerging wind turbine manufacturing startups?

These emerging wind turbine manufacturing startups work on solutions ranging from portable electric generators and agricultural turbines to vertical coaxial twin-blade technologies and sensor-driven design optimization. 1. Bonvan Bonvan develops a mobile wind turbine kit for domestic energy generation.

What is the next-generation Sierra wind turbine based on?

The next-generation Sierra onshore wind turbine is based on GE's patented Advanced Loads Control System. According to GE Renewable Energy, Haliade-X is the world's most powerful offshore wind turbine with an industry-leading capacity factor (63%), a 220-meter rotor, and a 107-meter blade.

In this article from the 2024 Renewable Energy Market Review discover the rise of Chinese wind turbine OEMs in renewables.

The first phase of its wind turbine assembly project already generated 2.1 billion yuan in output value in 2024. To date, Jiuquan has built an industrial ecosystem characterized by what has ...

The Wind Turbine Generator Market is expected to reach USD 21.21 billion in 2025 and grow at a CAGR of 9.27% to reach USD 33.04 billion by 2030. Goldwind, Envision Energy, Ming ...

China has long been recognized as a global powerhouse for its manufacturing base but may be at a turning point where its wind turbine generator (WTG) original equipment manufacturers ...

For the first time in history, the world's top four wind turbine manufacturers are Chinese: Goldwind, Envision, Mingyang, and Windey. ...

Windey Energy Technology Group Co.,Ltd.,the earliest windturbine manufacturer in China, has been a specialist of wind power technologiesfor 40 years. Windey, a National Hi-tech. Enterprise ...

For the first time in history, the world's top four wind turbine manufacturers are Chinese: Goldwind, Envision, Mingyang, and Windey. Meanwhile, in 2024, Europe reached a 92% share of its ...

As the world's largest wind power market, China's wind turbine manufacturing landscape features both state-owned giants and agile private innovator

Discover 10 emerging wind turbine manufacturing companies to watch in 2026 & find out how their solutions will impact your business!

Check out our blog for the best wind turbine manufacturers, including the largest OEMs in the wind industry and leading wind power generation companies.

With a proven history of delivering reliable, high-performance wind turbines--boasting ~120 GW installed across a fleet of ~57,000 turbines operating more than 4 billion hours in 51+ countries. ...
